“This Layered Stencil is perfect for Spring and Summertime makes! I’m looking forward to creating sweet Spring themed cards and invitations and personalising with a perfectly placed stamped sentiment in the centre. Strawberries are an iconic shape for this season and a key trend for 2024 so I can’t wait to get creative with this fresh design! It is super easy to layer up and you can even use some of the elements independently, but in my opinion, strawberries and flowers are a winning combination!”

“Introducing product technologies that cross over and work together is such an exciting evolution of creativity! We developed Layering Stencils that pair with both existing and new 3D Embossing folders to add an additional technique of inking to an already popular making activity. This adds new life and expands the versatility of the different looks our embossing folders can achieve through focused areas to build up layers of ink, further enhancing an already exciting design category.”

Vault Collection

Back from the vault!

Celebrating 15 years with Sizzix, Tim Holtz is bringing his favorite designs back from the vault and better than ever! The classics have been reimaged with Tim's creative approach to combine different design elements that all work together. These curated sets feature new sizes and different die technology offering something new both to makers who have the original dies, or makers who missed them first time around.

Launches January 2024
