Back from the vault!

Tim Holtz is bringing his favorite designs back from the vault and better than ever! Firstly, some of Tim's favorite 2D embossing folder designs have been transformed into Multi-Level Folders giving even more depth and dimension to your makes. Plus we have several die sets launching alongside in a different size or technology to the original sets. This release offers something new both to makers who have the original designs, or makers who missed them first time around.
