Back from the vault!

Tim Holtz is bringing his favorite designs back from the vault and better than ever! These popular embossing folder designs have been transformed from A6 to a larger A5 size, providing even more opportunity for makers. These new folders offer something new both to makers who have the original designs, or those who missed them first time around.

Sizzix® Accessory Cutting Pad - A5

Approximate Size:

- 15.56cm x 26.9cm x 0.32cm
- 6 1/8" x 10 1/4" x 1/8"

This Cutting Pad pairs perfectly with our new Large/A5 Embossing Folders. With the size being slightly bigger than the cutting pad, it makes it easy for the rollers of the machine to grip the entire sandwich ensuring a full entire pattern is embossed perfectly every time.

As this works with our 3D Embossing Folders, you only need to use 1 cutting pad on the top of the sandwich when running through the machine.
