About 49 and Market

Prior to starting 49 and Market, Janene Meyerowitz, owned an online scrapbooking business, thescrapbookdiaries.com. After several years of specializing in kits designed by globally recognized designers, it became increasingly difficult to find the look and types of products she was drawn to. As a result of this, 49 and Market was born. The brand has built its reputation as a premium paper crafting brand through offering high quality products and designs that are fresh yet offer a vintage vibe.

Introducing 'Snap and Swap'!

This new 'Snap and Swap' collection from 49 and Market opens up a plethora of creative opportunities for makers! With the ability to create journals, pocket and tags, all with interchangeable edge pieces in different designs along with other decorative options, makers simply swap the pieces to create something unique every time! The different dies in the three sets can all be used together, whether adding different pockets to a journal or adding decorative elements to your tags.

- Snap and swap different edges on your journals, tags or pockets for amazing versatility.
- Easy to change and fit a different die piece using the notches included in the dies.
- Many of the dies in this collection are interchangeable to give even more options.
